FUND SPECIFIC RISKS

The fund will predominantly invest in Global Equity markets. The value of the underlying shares, as well as the dividend income generated from them, can decrease and increase as affected by changes in market conditions. The fund may be more suited to investors who

- With a horizon of 5 years or more
- Want 100% exposure to global equities i.e. equities listed outside of South Africa;
- Are willing to withstand intermittent large capital losses in pursuit of higher upside in the long run;
- Are comfortable with high volatility which can cause large fluctuations in portfolio value;
- Have no income requirements from this investment; and
- Are using this portfolio for diversification or as a building block in a greater portfolio that may or may not be high risk overall.

RISK GUIDANCE

Equity risk:	Value of equities (e.g. shares) and equity-related investments may vary according to company profits and prospects as well as more general market factors. If a company defaults (e.g. bankruptcy), their equity holders rank last in terms of any financial payment from that company.
Property risk:	Investments in real estate securities can carry the same risks as investing directly in real estate itself. Real estate prices move in response to a variety of factors, including local, regional and national economic and political conditions, interest rates and tax considerations.
Geographic / Sector risk:	For investments primarily concentrated in specific countries, geographical regions and/or industry sectors, their resulting value may decrease whilst portfolios more broadly invested might grow.
Liquidity risk:	If there are insufficient buyers or sellers of particular investments, the result may lead to delays in trading and being able to make settlements, and/or large fluctuations in value. This may lead to larger financial losses.

GLOSSARY SUMMARY

Annualised performance:	Annualised performance shows longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request. All performance returns and ranking figures quoted are shown in USD and are based on data sourced from Eagle and are as at 30 November 2020.
Highest & Lowest return:	The highest and lowest returns for any 1 year over the period since inception have been shown.
NAV:	The net asset value represents the assets of a Fund less its liabilities.
Sharpe Ratio:	The Sharpe ratio is used to indicate the excess return the portfolio delivers over the risk-free rate per unit of risk adopted by the fund.
Standard Deviation:	The deviation of the return stream relative to its own average.

FUND MANAGEMENT DETAILS

Management Company	Disclaimer
<p>Prescient Fund Services (Ireland) Limited.</p> <p>Physical address: 44 Upper Mount Street Dublin 2 Ireland.</p> <p>Telephone number: +35 31676 6959</p>	<p>Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not a reliable guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.</p> <p>Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request. Prices are published daily and are available on the Prescient Global Funds website. For any additional information such as fund prices, brochures and application forms please go to www.benguelaglobal.com</p> <p>The Investment Manager retains full legal responsibility for any third party-named portfolio. Given the inclusion of foreign securities in the portfolio, there may be periodic constraints on liquidity as well as the repatriation of funds, caused by macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on their availability of market information. The investor acknowledges the inherent risk associated with the selected investments with the understanding that there are no guarantees. Furthermore, kindly note that all documents, notifications of deposits, investment, redemption and switch applications must be received by Prescient Fund Services (Ireland) Limited before 10:00am (Irish time), and will be transacted at the net asset value price of the day. Where all required documentation is not received before the stated cut off time, neither Benguela Global Fund Managers nor Prescient Fund Services shall not be obliged to transact at the net asset value price as agreed to.
